R. H. McDONALD & CO.,  
WHOLESALE DRUGGISTS,  
San Francisco Cal.

Call the attention of dealers to their large assortment of "Newly Arrived" Goods, composed in part of the following articles, together with every thing kept in a well supplied WHOLESALE DRUG STORE.  
FRESH DRUGS, CHILDREN'S PREPARATIONS, DENTAL EXTRACTS, DENTAL INSTRUMENTS, TRUSSES & SUPPORTERS, SHAKER HERBS, ESSENTIAL OILS, PAINTS & OILS, KEROSENE OIL, Which we offer at the lowest Cash Prices, and are determined not to be undercut.

R. H. McDONALD & CO., SAN FRANCISCO, CAL.

For Sale.

OUR DRUG BUSINESS located in San Francisco co. Cal. After due weight and expressing our thanks for the kind attention we have received during the twenty-one years, during which period we have been steadily engaged in the Drug business in California, we beg to say in consequence of the rapid growth of Mr. Walker's California Vinegar Bitters, now spread over the United States and other countries far beyond, we are necessitated to devote our entire time to the said business.

We are the Oldest Drug firm on the Pacific Coast and by no means continuous under the same proprietors since 1848, and have determined to sell our large, prosperous, and well established business on favorable terms.

This is a rare opportunity for men with means, of entering into a profitable business with advantages never before offered.

For particulars enquire of R. H. McDONALD & CO., Wholesale Druggists, San Francisco, Cal. N.B. Until a sale is made we will continue our importations and keep a large stock of fresh goods constantly on hand, and sell at prices to defy competition.

A GREAT MEDICAL DISCOVERY  
Dr. WALKER'S CALIFORNIA VINEGAR BITTERS

# THE BRITISH COLONIST.

Saturday Morning, June 10, 1871.

## Americo-Canadian Tunnel

The reader will very likely know that the Great Western Railway Company (Canada) and the Michigan Central Railway Company (U.S.) have conjointly undertaken the construction of a railway tunnel under the Detroit River, opposite the city of that ilk. The object of this great undertaking is to enable these two great railways to connect with facility, the cars of each going through the tunnel and passing over the entire line of the other. At present the connection is made by means of large steam ferry boats, constructed of iron; but in addition to the usual inconvenience, delay and expense incident to this mode, passage is sometimes seriously impeded by large bodies of floating ice, during certain seasons of the year. This work being as much Canadian as it is American, a brief description of it may not prove altogether uninteresting. On the Detroit side the cutting will begin east of First street, and will reach the first arch in a distance of 47 feet. Thence a double track tunnel or covered way. From the Detroit portal the circular form of the tunnel proper is reached in a distance of 92 feet. From that point there will be two single track tunnels extending to the portal on the Canadian side, from which an open cutting will extend for about half a mile, and thence the track will make a junction with the Great Western in a distance of one-third of a mile at a point two miles distant from the Windsor station.

The length of the tunnels from the Detroit to the Canadian portal will be each 8,568 feet. The Engineer has proposed the construction of two single track tunnels entirely separate, instead of one larger one sufficient to accommodate a double track; because by this plan the total amount of excavation will be greatly lessened, and also for the important consideration that, in the event of an accident or any other obstruction occurring in one tunnel, the other will still be ready for use, and the passage of trains be not even temporarily prevented. The tunnels will be cylindrical in form, and will run parallel, 50 feet apart. The interior diameter of each is 18 feet six inches. The shell of brick masonry will be two feet thick in all that part of the line under the bed of the river, but at each bank this will be reduced to one foot six inches. In addition to the main tunnels, a small drainage tunnel, with an interior diameter of five feet will be built, extending across the river considerably below the main lines and midway between them. This will be the first constructed in order to drain the main tunnels while the work progresses, as well as afterward, and also to develop fully the character of the soil at the commencement of the work. The estimates for excavation and masonry are as follows:

Cubic Yards..... 299,000  
Excavation in open cutting..... 233,000  
Excavation in tunnel..... 233,000  
Brick masonry, (exclusive of drainage tunnel)..... 68,000  
Stone masonry..... 3,700

The estimates for the entire cost of the tunnel and its approaches, including a permanent double track, with steel rails, right of way, etc., amount to \$2,560,000. It is thought it will require about two years to complete the tunnel.

The Canadian Parliament during its last session, chartered a corporation called the Detroit River Tunnel Company. The company has a capital of three million, and is composed equally of Americans and Canadians. This will be the greatest sub-aqueous tunnel in the world, and it is estimated that, in the magnitude of the plan of its construction, in the capacity which it will afford under the water, and in the amount of business which will be conducted within the dark recess, it will have no rival upon the continent. Truly Canada bids fair to excel in the magnitude of her engineering works. The International Railway, with its innumerable bridges of iron, the Grand Trunk, with its Victoria Bridge, a work which cost upwards of five millions and has no equal; and now the Great Western seeking connection with the Michigan Central by means of a tunnel system without a parallel. Next will come the Canadian Pacific Railway, doubtless, with its iron bridges and, in all probability, with its tunnel system overcoming the waters which were at one time supposed to threaten its progress to Equatorial. Who will say that the young Empire of the North West is not on the high road to greatness?

## An Important Class

The miners arriving from week to week and wending their way to our new Eldorado are for the most part representative men who have come from various mining localities on the Pacific slope and whose report will attract or repel many waiting thousands, according as their verdict is favorable or the reverse.

Other things being equal, we cannot regard the miners, man for man, as being of equal importance to the colony with the agriculturists; but it must be admitted that in point of fact the miners constitute a very important class in British Columbia at the present time, and doubtless will continue to do so for years to come. The circumstances to which we have alluded is, therefore, one of no little interest; and just in proportion to the belief in the richness and extent of our new gold mines will it be a source of hopeful anticipation. These pioneer Omnipotents have come from Alaska, Washington Territory, Oregon, California, Nevada, Montana, White Pine and numerous other places the names of which do not at the moment occur to the writer, and should the good reports which brought them to our shores be confirmed or even approximately confirmed by personal investigation, it is reasonable to expect that every man will be the means of bringing his fifties or his hundreds next season. We have very little later news from Omnipotents, but that little is in perfect but

mony with what has been already placed before the public and all tends to confirm the belief that these new diggings will more fully meet the expectations and fill the pockets of those resorting thereto than any that have been discovered since the early days of California. We are aware that industrious efforts are being put forth by not distant neighbors to stem the tide of population recently visible setting in towards these shores, but this is a circumstance which occasions little or no regret. We desire to see no "rush" this year. The twelve or fifteen hundred who have gone or are going to Omnipotents will be quite sufficient to demonstrate the richness of the country beyond all possible cavil. That once accomplished, they are, as has been intimated, precisely the right class of men to become the medium of inducing a large population to work the new mines at a time and under circumstances when the colony will be enabled more largely to profit by the presence of a large body of miners. According to our thinking the present current of circumstances is all that could be desired, in so far as the development of Omnipotents is concerned.

### NEWS! NEWS!

The "British Colonist" is the only newspaper published at Victoria that receives the latest Telegraphic Dispatches, as a comparison will prove. Late Telegrams appearing in any other paper are copied without credit 24 hours after they have appeared in the British Colonist. The circulation of the British Colonist being greater than that of any other Paper, it offers the best medium to Advertisers.

THE SURVEY.—We hear that it is proposed to place the steamer Sir James Douglas at the disposal of Mr Sandford Fleming for service up the coast in making the necessary explorations and survey for the railway, and that the services of Captain Cooper, as pilot to the expedition, will be secured. All this is doubtless right and proper. The Douglas

is at present so well engaged, it will be necessary that her place be filled by a suitable vessel, so that the various interests may be in no degree sacrificed by the change. Indeed, if it should be found necessary temporarily to withdraw the Douglas, we would suggest an arrangement by which whatever boat takes her place might make bi-monthly trips to Comox; for it is really too bad that so important a settlement should be put off for another season with the monthly visits of a steamer, merely because its representative happened to make a "mull" of the subject in the Legislature.

THE PANTHER!—About one o'clock yesterday morning Mr Dacey, Government Messenger, saw a large panther run from the direction of Government Buildings towards James Bay. The brute passed quite closely to Mr Dacey, who started one of his dogs on his track. The dog soon returned minus a part of one of his ears. Yesterday morning the tracks of the animal were plainly discernible in many places around the buildings. Mr Dacey is the fortunate owner of a calf after which the panther is supposed to have been prowling. The Standard bull-dog had better take warning. Should the panther go for him some night, his motto would probably be—"Come real come you!"

ANOTHER CURIOUS ADVERTISEMENT.—A local print of no influence and less circulation, which has of late furnished an inexhaustible source of amusement to town-wags in consequence of its boldness, contains the following characteristic advertisement:—

WIFE WANTED.

—, having a good farm and being free from debt, on which she milks eighteen cows, wants to get married, etc, etc.

The advertiser leaves the reader in doubt as to whether he milks the cows on the good farm or on the debt. Girls wanting a husband, had better inquire before they commit themselves to writing.

THE CATHEDRAL.—Tenders for the construction of Christ Church Cathedral were opened yesterday afternoon, but the figures ranged so high that the Committee decided not to accept any at present. Instead of carrying out the design proposed when the tenders were asked, the Committee intend to call for tenders for quarrying and furnishing stone from the Church Reserve, to be used in the construction of the edifice.

THE REGISTRATION.—For Victoria City District, somewhere near 600 claims have been sent in, and for the Lake Polling Division about 220 claims have been recorded. In the entire Parliamentary District about 1000 votes will be cast at the next election.

CONDENMED.—The ship Golden Age, which loaded at Burrard Inlet some months ago and put in at San Francisco in distress, has been condemned and her cargo (which was for Valparaiso) transferred to the ship Huguenot.

GOOD JOB.—Willis Bond has graded and gravelled Government street to the city boundary and has made a good job of it. It remains now for the colonial authorities to continue the improvement to the junction of Government street with Saanich road.

THE STEAMER Enterprise sailed for New Westminster yesterday morning at ten o'clock, carrying about 50 passengers and a large freight. Amongst the passengers we observed Mr and Mrs F J Barnard and family who intend spending a few weeks at Yale.

THE ISABEL with the mails did not arrive until noon yesterday, in consequence of an accident to the Alida. The Isabel left at 1 o'clock for Nanaimo to take in coal for her own use.

THE CORPORATION are closing the man-trap on Johnson street, pointed out by us yesterday. Such promptitude is worthy of praise.

THE GREAT TELEGRAPH JUBILEE will be held at New York to-day. Tomorrow morning's COLONIST will contain the congratulatory messages.

POLICE COURT.—There were no cases on the record yesterday. The institution seems to be taking quite a rest of late.

IMPROVEMENTS.—A greater amount of building is going on in this city than has been the case for some years. On Cook street Mr Engels' new cottage is nearly finished. On Yates street, above Quadra, Mr York is erecting a fine cottage. To the residence of the Mayor a large addition is being constructed. Mr Carlo Bossi has underway a two-story fireproof warehouse on Government street, near Johnson. Mr P Promis has just finished a new dwelling on Cormorant street, and the large cottage adjoining is being enlarged and improved for the reception of a family. Several smaller structures are also in process of construction and other improvements are projected.

JOHN VAUDRY, who died at the Royal Hospital on Tuesday last of heart disease, was connected with some of the best families in Cornwall, England. He was formerly a large farmer, and farmed the Barton of Godolphin, property of the Duke of Leeds. His dying request was that his family should remunerate the Royal Hospital Committee for the kindness that had been shown to him there.

IN LIMA.—Yesterday a noisy, drunken vagabond of a Siwash, attempted to kick up a row in the streets with some sailors, and when policeman attempted to quiet him, he turned his assault upon the officer who was obliged to use severe measures to subdue him. After the scamp found that he had more than his match he played possum by feigning stupidity and was dragged into the police barracks as one dead.

CHARIVARI.—A member of the Fire Department having been and gone and got himself a rib, was serenaded with tin pans, cowbells and fishhorns on Thursday night. The bridegroom, like a sensible fellow, "stood treat" and the serenaders departed cheering the happy couple.

THE ORLEANS PRINCES.—It will be seen by our Exclusive Dispatch that the disabilities have been removed from the Orleans Princes.

THE SCOTTISH GATHERING.—The programme for the gathering and sports on the 4th of July will be found elsewhere. Additions will be made as the list of judges and speakers is completed.

THE FIREMEN will hold their annual picnic on the 1st proximo—Dominion Day. Let there be a grand rally and a general holiday.

TELEGRAPHIC EXTENSION.—Telegraphic communication has been established with Singapore, Hongkong and Shanghai—so says our Exclusive Dispatch of last night.

MARINE DISASTER.—Our Exclusive Dispatches announce the loss, on the coast of Newfoundland, of a vessel and all on board—forty souls.

BARNARD'S EXPRESS, with news from Berville to 5th June, will be due here to-night. The mail which reached here last Wednesday only brought dates to 28th May.

THE SALE of marblework will take place today in the store at the corner of Government and Fort streets.

FOR SKEENA.—The Emma sailed last evening for Skeenamouth with about 40 miners for Omineca.

THE OTTER will sail on or about Wednesday next for Skeenamouth.

### The "City of Boston."

The St John's Telegraph says: It was stated in this paper on Friday morning that a bottle containing a slip of paper, purporting to have been cast overboard from the City of Boston, had been picked up at Caney Cape, a few miles north of Sheddac. There is no doubt whatever of the finding of such a bottle. It was found on the beach by some Frenchmen, who, on being informed that the document which it contained was of importance, refused to allow it to be further handled, and carried it to their houses, believing money would be paid them for surrendering the property. On Saturday the Rev Mr Connolly, R C priest of the district, learning the facts of the case, exerted his influence to obtain the bottle and paper. A telegram on Saturday, to the Telegraph and Journal, says:

The document is now in possession Rev Mr Connolly, who deserves thanks for the trouble he has taken in getting it. The following is a copy:

"21st March, 1870.—City of Boston is sinking. Half full of water. No hopes. Take care of my boy." Thompson.

(Signed.) Under the signature was written:—"All gone in two hours."

Mr Thompson, merchant of Halifax, was on board the City of Boston. He had a sick son in England, who was a great favorite with his father.

There is another great centenary coming. Nicholas Copernicus was born on the 19th of February, 1473, and the people of his native town of Thorn, in Prussia, are already preparing for a celebration worthy of the event. They have got nearly two years in which to complete their preparation, but they contemplate great things. Among other stupendous undertakings which are to be achieved for the glory of Copernicus, there is to be a prize biography, which shall be written "scientifically" from authentic documents, and prove beyond question the Polish nationality of the celebrated astronomer. At this latter point has long been disputed, and heavy arguments used to prove the contrary, the aspirant of the prize of 500 thalers and the hour which is to go with it may have a difficult task on his hands. Suppose the authentic documents "scientifically" will not show that was a Pole, what is to be done? No doubt there will be found a German brain sufficiently powerful to get over the difficulty, and the mooted question will be settled in favor of Poland by the Executive Committee of the Thorn celebration.

A grave-stone cutter in Maine, who heard that an acquaintance had lost his wife, hastened to console him and to obtain, if possible, an order. The bereft widower, however, repelled him with scorn and indignation, saying that the fellow who had run off with his wife might buy a grave-stone when it was needed; he certainly should not.

REMEMBER THE FATE OF ABSALOM.—Fred Payne, Tonsorial Artist. Shaving 12¢ cents Hair Cutting 25 cents, Shampooing 25 cents That Original Cheap Shaving Shop stand on the sunny side of Johnson street. \*

THE SUNNYSIDE.—Mrs McDonell has ad-

ed a spacious restaurant to the Sunnyside Lunch room and is now fully prepared to supply meals at all hours to an unlimited number of guests. \*

MILLINERY.—By last steamer a first class milliner arrived from Europe for the London House. \*

POLICE COURT.—There were no cases on the record yesterday. The institution seems to be taking quite a rest of late.

## By Electric Telegraph,

SPECIAL TO THE DAILY BRITISH COLONIST.

### LAST NIGHT'S DISPATCHES.

Oregon.

SALEM, June 8.—The notorious convict, Shultz, with a 20-pound shackle on, ran past his guards this evening and made his escape into the woods on the South side of the prison. An alarm was given and people from all parts started in pursuit.

Eastern States.

WASHINGTON, June 8.—The President in consultation with a correspondent at West Point, characterized the attack on the Apaches at Camp Grant as purely murder. His policy was that he wanted peace there as well as elsewhere. He intended to investigate the Camp Grant affair and would be just to all concerned.

The new dollar gold certificates will be issued next week.

California.

SAN FRANCISCO, June 7.—Arrived—Steamer Orizaba, San Diego.

H R Bryne, Prosecuting Attorney of San Francisco, who, since the Fair trial, has been dangerously ill at Gilroy, has so far recovered as to be pronounced out of danger, and expects to return to San Francisco in a few days.

The report that the first 145 miles of the eastern extension of the California Pacific Railroad has been contracted for is not correct. The surveying parties are engaged in the field, but no contracts have yet been let. The subject of continuing the line down to Sacramento has been under consideration but no definite determination has been arrived at.

The protesting Democrats, with Fielder at their head, are holding a secret meeting this evening, with a view to determining on a course of action with regard to the calling of primaries to elect delegates to the State Convention in opposition to those appointed by the Committee.

SAN FRANCISCO, June 9.—At least three operators interested have cleared independent fortunes out of the recent advance in the Crown Point. Other financiers and several leading brokers have been clearing from \$5000 to \$10,000 a week in commissions since the rise commenced.

A committee has been entrusted with the arrangement of a plan for opposing the extension of Montgomery avenue. Probably nearly all the property interested will be represented in the protest and injunction.

The President of the Mechanics' Institute has received notice that Japan will do no immediate contribution to the coming fair in this city, embracing specimens of almost every kind of work in wood, metal or other materials carried on in the empire. This is expected to be a leading feature of the fair.

Europe.

LONDON, June 9.—The Times, reviewing the Canadian opposition to the treaty, thinks it (the treaty) sacrifices small communities to the convenience of powerful States. A portion of the empire is made the scapegoat for peace and the possession of the maritime provinces bartered away by Canada in return for American free trade which rapidly increases.

BUCHAREST, June 9.—The Chamber has ratified the election of G Hicks, a Conservative, as President.

THE SALE of marblework will take place today in the store at the corner of Government and Fort streets.

For SKEENA.—The Emma sailed last evening for Skeenamouth with about 40 miners for Omineca.

THE OTTER will sail on or about Wednesday next for Skeenamouth.

Second Dispatch.

Exclusive to the 'Colonist.'

Europe.

VERSAILLES, May 7.—In Assembly, debate on the removal of the political disabilities of the Orleans Princes was resumed. The committee were in favor of abolishing the presumption.

M Thiers said he had opposed the abrogation of the law because he believed such action to be dangerous and only assented to the views of the Committee on the Princes engaging not to sit in the Assembly and not to enter into any intrigues against the Republic. The Assembly then voted to abrogate the law of proscription by a vote 481 to 113, and proceeded to declare valid the election of the Due d'Anjou and the Prince de Joinville to seats in the Assembly by a vote of 448 to 113.

PARTS, June 9.—The Marquis Gallifant was assassinated to-day by the widow of a Communist shot by his orders.

LONDON, June 9.—A dispute from Constantinople dated yesterday says that fires had broken out simultaneously in four different places during that morning. One hundred houses were in flames. Fortunately the wind was light and there was a prospect of getting the conflagration under control.

The document is now in possession Rev Mr Connolly, who deserves thanks for the trouble he has taken in getting it. The following is a copy:

"21st March, 1870.—City of Boston is sinking. Half full of water. No hopes. Take care of my boy." Thompson.

(Signed.) Under the signature was written:—"All gone in two hours."

Mr Thompson, merchant of Halifax, was on board the City of Boston. He had a sick son in England, who was a great favorite with his father.

There is another great centenary coming. Nicholas Copernicus was born on the 19th of February, 1473, and the people of his native town of Thorn, in Prussia, are already preparing for a celebration worthy of the event. They have got nearly two years in which to complete their preparation, but they contemplate great things. Among other stupendous undertakings which are to be achieved for the glory of Copernicus, there is to be a prize biography, which shall be written "scientifically" from authentic documents, and prove beyond question the Polish nationality of the celebrated astronomer. At this latter point has long been disputed, and heavy arguments used to prove the contrary, the aspirant of the prize of 500 thalers and the hour which is to go with it may have a difficult task on his hands. Suppose the authentic documents "scientifically" will not show that was a Pole, what is to be done? No doubt there will be found a German brain sufficiently powerful to get over the difficulty, and the mooted question will be settled in favor of Poland by the Executive Committee of the Thorn celebration.

THE REGISTRATION.—For Victoria City District, somewhere near 600 claims have been sent in, and for the Lake Polling Division about 220 claims have been recorded. In the entire Parliamentary District about 1000 votes will be cast at the next election.

CONDENMED.—The ship Golden Age, which loaded at Burrard Inlet some months ago and put in at San Francisco in distress, has been condemned and her cargo (which was for Valparaiso) transferred to the ship Huguenot.

GOOD JOB.—Willis Bond has graded and

gravelled Government street to the city boundary and has made a good job of it. It remains now for the colonial authorities to continue the improvement to the junction of Government street with Saanich road.

THE STEAMER Enterprise sailed for New Westminster yesterday morning at ten o'clock, carrying about 50 passengers and a large freight. Amongst the passengers we observed Mr and Mrs F J Barnard and family who intend spending a few weeks at Yale.

THE ISABEL with the mails did not arrive until noon yesterday, in consequence of an accident to the Alida. The Isabel left at 1 o'clock for Nanaimo to take in coal for her own use.

THE CORPORATION are closing the man-trap on Johnson street, pointed out by us yesterday. Such promptitude is worthy of praise.

THE GREAT TELEGRAPH JUBILEE will be held at New York to-day. Tomorrow morning's COLONIST will contain the congratulatory messages.

POLICE COURT.—There were no cases on the record yesterday. The institution seems to be taking quite a rest of late.

THE CORPORATION are closing the man-trap on Johnson street, pointed out by us yesterday. Such promptitude is worthy of praise.

THE SUNNYSIDE.—Mrs McDonell has ad-

ed a spacious restaurant to the Sunnyside Lunch room and is now fully prepared to supply meals at all hours to an unlimited number of guests. \*

## Medical.

**Henry T. Helmbold's  
COMPOUND FLUID**

Extract Catawba.

**GRAPE PILLS**Component Parts—Fluid Extract  
Rhubarb and Fluid Extract, Catawba  
Grape Juice.FOR LIVER COMPLAINTS, JAUN-  
DICE, Bilious Affections, SICK or Nervous Head-  
ache, Convulsions, etc. Purely Vegetable, containing no  
Mercury, Minerals or Delicuous Drugs.

These Pills are the most delightfully pleasant purgative  
superioring castor-oil, salts, magnesia, etc. They are not  
hot, nor irritating, nor causing any pain. They are composed of the finest ingredients. After a few days' use of  
them such an invigoration of the entire system takes  
place as to appear miraculous to the weak and enervated,  
whether arising from improvidence or disease. H. T.  
Helmbold's Compound Fluid Extract, Catawba Grape  
Pills are not equalled from this fact, that they do not dissolve,  
but pass through the stomach without  
dissolving, consequently do not produce the desired  
effect. The Catawba Grape Pills, being pleasant in taste  
and odor, do not necessitate their being sugar-coated.  
PRICE FIFTY CENTS PER BOX.

**HENRY T. HELMBOLD'S.**  
HIGHLY CONCENTRATED COMPOUND  
FLUID EXTRACT SARSAPARILLA

Will radically exterminate from the system Scrofula,  
Syphilis, Fever Sores, Ulcers, Sore Eyes, Sore Legs, Sore  
Mouth, Sore Head, Bronchitis, Skin Diseases, Salt Rheum,  
Canker, Piles, Ulcers, Sore Mouth, Sore Throat, Tumors.  
Cancerous Affections, Nodes, Rickets, Glandular  
Swellings, Night Sweats, Rash, Tetter, Humors, of all  
Kinds, Chronic Rheumatism, Dyspepsia, and all Diseases  
that have been established in the system for years,

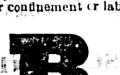

Being prepared expressly for the above complaints, it  
is superior to any other, and more effective than any other  
preparation of Sarsaparilla. It gives the complexion a  
clear and healthy color and restores the patient to a state  
of health and purity. For purifying the blood, removing  
all chronic constitutional diseases arising from an im-  
pure state of the blood, and the only reliable and effect-  
ual known remedy for the cure of pains and swelling  
in the head, neck, limbs, and joints; the throat and legs, by  
pimpls on the face, eruptions and all scaly diseases of the  
skin, and beautifying the complexion. PRICE \$1 50  
PER BOTTLE.

**HENRY T. HELMBOLD'S**  
CONCENTRATED  
FLUID EXTRACT BUCHU,  
THE GREAT DIURETIC.

has cured every case of Diabetes in which it has been  
given. Irritation of the neck of the bladder and infi-  
ammation of the mucous membrane of the bladder, retention of urine, diseases of the prostate gland,  
stones in the bladder, catarrhs, gravel, brick-dust deposit  
and mucous or milky discharges, and for enfeebled and  
debilitated constitutions of both sexes attended with the  
following symptoms—Indispension to excrete, loss of  
power of memory, dullness of the brain, debility, consti-  
pation, irregularities of disease, wantonness, dim-  
ness of vision, pain in the back, hot hands, flushing of  
the body, dryness of the skin, eruption on the face, pal-  
lid countenance, universal insatiety of the muscular  
system, etc.

Used by persons from the ages of eighteen to twenty  
five, and from thirty-five to fifty-five or in the decline or  
change of life after confinement or labor pains; bed-wetting  
in children.

**Henry T. Helmbold's Extract Buchu** is diuretic and blood pur-  
ifying, and cures diseases arising from habits of dissipa-  
tion and excesses, and is profuse in life. Immured  
in the blood, etc. Superseces Cephaia in affections for  
which it is used, and syphilitic affections—in these dis-  
eases used in connection with HELMBOLD'S ROSE  
WASH.

L.D.S.

In many affections peculiar to ladies, the Extract  
Buchu is unequalled by any other remedy—as in chlorosis  
or retentio, irregularity, painfulness or suppuration  
of uterine evasions, ulcerated or chitinous state of the  
uterus, leucorrhœa or whites, sterility, and for all  
complaints incident to the sex, whether arising from de-  
sire or habit of dissipation. It is prescribed ex-  
tensively by the most eminent physicians and midwives  
for enfeebled and debilitated constitutions, of both sex and  
all ages (attended with any of the above diseases or  
symptoms).

**NOTICE IS HEREBY GIVEN THAT**  
printed forms of Notices of Claims to be given, and  
Declarations to be attached thereto, under the Qualifica-  
tion and Registration of Voters Act, 1871 can be ob-  
tained or applied to the following Collectors for
